Dr. David Gleaner and Staff

Thank you for all the help you gave me, fixing my teeth. I never feel pain when I get my mouth numb from the Novicaine. You always ask if I'm O.K. when you're working on my mouth. You listen to me and explain everything you're going to do to my teeth. I've been to other Dentists years ago, and I didn't like them. My mouth would hurt and they weren't as nice as you. For the past 6 years that I've been seeing you, you have made my teeth beautiful.
